

100% PRO-LIFE

The Constitution Party holds the belief that life begins from conception. In that, we believe that it is murder to abort an unborn baby. We also believe that life must be allowed to take its natural course from conception until death, and that it is an abridgement of justice to practice abortion or euthanasia and that no person should be deprived of the right to life without due process of constitutional law.

NATIONAL DEFENSE

The armed forces of the United States exist to provide for the common defense of the American people. We advocate a strong, state-of-the-art military and we oppose unilateral disarmament. Under no circumstances would we commit U.S. military forces to serve under any flag but that of the United States of America. In issues of foreign policy, our goal is to be the friend of liberty everywhere, *but the guarantor of ours alone.*

AMERICAN INDEPENDENCE

We cherish the independence given to us by the founding fathers and believe that all federal legislative power should continue to be vested in our elected representatives. This congressional power cannot be lawfully given to any other body of governance. For that reason, we oppose participation in any foreign alliance, treatise or global organization that compromises our independence, such as the United Nations and NAFTA.

PROTECTING THE 2ND AMENDMENT

According to our forefathers and those citizens of the original thirteen colonies the right to keep and bear arms was essential to the liberty that we possess. Thomas Jefferson said that, “the strongest reason for the people to retain the right to keep and bear arms is, as a last resort, to protect themselves against tyranny in government.” The Constitution Party understands that as history has shown when the common citizen is refused the right to keep and bear arms then tyranny is allowed to prevail over an unarmed people. By refusing the citizen this right, one also takes away the citizens right to protect themselves against. We stand opposed to any legislation that would attempt to ban firearms or that requires the registration of firearms, even pistols/revolvers. We support concealed carry without a permit.

EDUCATIONAL FREEDOM

Since education is the sole responsibility of the state, we believe that the Federal Department of Education should be abolished and all federal education laws be repealed. We also believe that it is the parent’s right to decide where their child is to attend school and that that parent’s taxes be used solely for the education that they choose, be it public, religious, home or private. As Thomas Jefferson said, “To compel a man to subsidize with his taxes the propagation of ideas which he disbelieves and abhors is sinful and tyrannical.”

EXECUTIVE ORDERS

The Constitution Party opposes the use of executive orders that make law, in that they are a usurpation of power over the Constitution and Congress. Executive Orders give the president the power to declare a law without the interference of Congress, otherwise said, one man makes the law. We stand for the repeal of all unconstitutional executive orders.

Constitution Party of North Carolina
State Executive Committee

Dear friend,

In the beginning of our nation's history, our forefathers warned us to be cautious with our government so that we could cherish the liberty that they risked all to give us. Thomas Jefferson said, "Educate and inform the whole mass of the people... They are the only sure reliance for the preservation of our liberty."

The men who signed the United States Constitution knew all too well, why federal government must only have limited power. They knew that government was not the master of the people, but rather it should always be the servant and protector of the people.

In our day, Republicans and Democrats control government at all levels with a seemingly insatiable desire to greatly expand its power. The two-major parties have become essentially the same, only differing in an outward façade, while both continue to abandon the Constitution in favor of big government and the destruction of individual liberty, while we have been pounded with the philosophy that we only have two "viable" choices on Election Day. Yet, there is HOPE, and you do have another choice!

The Constitution Party desires to restore our government to its limited constitutional boundaries and its Biblical foundations. We hope that you will join us in the fight to restore our *Republic!*

For Liberty's Sake,

Jordon M. Greene
State Treasurer

CONSTITUTIONAL TAX REFORM

Since 1913, after the passing of the 16th Amendment our constitutional rights to life, liberty and property have consistently been abridged by the unlawfully collected Federal Income Tax. It is said that the 16th Amendment paved the way for the Federal Income Tax that comes out of American's paychecks every week, yet the supreme court has ruled on several occasions that this Amendment gave *no* new powers of taxation, and that the Constitutional meaning of income was that of a corporations/businesses income not that of wages and salaries.

It is also little known that after repeated attempts at asking the IRS to show the law which requires average Americans to pay an income tax, that a response has never been given. The reason for this is that there is no law, yet innocent Americans go to jail for tax evasion each year. This must be stopped.

The Constitution Party seeks to pass legislation that would abolish the 16th Amendment, while replacing the current tax system with a tariff-based system which is supplemented by a state-rate tax where necessary. Taxes would be gathered on imported items, therefore encouraging business to operate within the US, creating jobs, and relieving Americans of the stress of giving up a quarter or more of their income. Along with this tax system, any department of government that is not necessary or constitutional would be eliminated. This would effectively increase prosperity and freedom across the country and work to eliminate the national debt.
